ALGHELE WATERBEPERKING ⇒ BULTFONTEIN / PHAHAMENG

U word hiermee in kennis gestel dat 'n algehele waterbeperking met onmiddellike effek ingestel word. Hierdie reëling is noodsaaklik as gevolg van 'n pypbreuk by Luipaardsvlei. Die vlakke van die reservoirs is baie laag en water kan nie na die rouwateropgaardamme gepomp word nie. Water sal slegs vir drie ure vandag, vanaf 17:00 tot 20:00 aan inwoners beskikbaar gestel word, waarna die water weer afgesny sal word.

Daar word voorsien dat hierdie beperking slegs vandag van toepassing sal wees, waarna die normale skedule weer in werking tree.

NOTICE: 3 / 2025

10 September 2025

Dear Resident

TOTAL WATER RESTRICTIONS ⇒ BULTFONTEIN / PHAHAMENG

Please take note that total water restrictions are implemented with immediate effect, due to a pipe burst at Luipaardsvlei. The levels of the reservoirs are very low and no water can be pumped to fill the raw water dams. Water will be available for three hours today, between 17:00 and 20:00, whereafter the water will be closed.

We foresee that this restriction will only be applicable for today, whereafter the normal schedule will be implemented again.

Your cooperation will be appreciated and we apologise for the inconvenience.
